

Seven branches. One standard.

Check it in seconds, visit by visit.

Milo is an AI data analyst for the whole team. It connects to your care management system, rotas, HR and finance, then answers in plain English in seconds. “Would we care for our own parents this way?”

Asked of every branch, every week.

WHAT MATTERS TO YOU

Three questions for the Monday branch call

Every answer comes with the working, the visit records behind each figure, and an offer to do the next thing.

FOR THE PEOPLE YOU SUPPORT

Who has seen too many new faces this month?

Milo 11 sec

31 clients saw five or more different carers in September. Most lost their regular carer in August and were never re-matched.

FOR YOUR CARERS

Which rounds leave no time to do the job properly?

Milo 9 sec

14 rounds allow under five minutes between calls twelve minutes apart by road. Those carers logged 9% of visits short, against 2% elsewhere.

INSPECTION READY

Which branch is least ready for its first CQC inspection?

Milo 12 sec

Of the five yet to be inspected, one stands out: 23 care plan reviews overdue and two gaps in medication records last week.

Figures are illustrative. On Delore's own data every answer traces back to the visit record it came from, and Milo shows the working.

CARE PLAN

Your first thirty days

Your systems stay as they are. Nothing gets migrated.

DAY 1

Connect

Read-only access to care management, rotas, HR and finance. Milo builds what's missing.

DAY 7

First answers

Milo knows your branches, packages of care, carers and rounds. Ask in the browser, Teams or WhatsApp.

DAY 14

The Monday brief

Continuity, short visits and overdue reviews for each branch, in every manager's inbox before the call.

DAY 30

Review

Carry on, or walk away. No notice period and nothing to unpick.

What's included?

- ✓ Unlimited users across every branch and head office.
 - ✓ A Milo lead, who sets it all up with you.
 - ✓ Dashboards any manager can build, and alerts when continuity slips.
 - ✓ The working behind every answer, down to the visit.

What's not included?

- ✗ A data warehouse project
 - ✗ New apps for carers
 - ✗ Seat licences

Safeguarding your data

Milo runs in the UK or EU region you choose. Personal and health data never trains a model or goes to an external AI service. Access follows your existing permissions, and calculations run as code, so the same question returns the same number every time.
